3500

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971) using a Shimadzu 1601 UV-Visible Spectrophotometer. The concentration of chlorophylls was expressed in $\mu\text{g mL}^{-1}$ of the sample.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field.

4. The fourth part of the report is a conclusion and a list of recommendations. It summarizes the main findings of the study and provides suggestions for future research.

5. The fifth part of the report is a bibliography of the sources used in the study. It lists the books, articles, and other references that were consulted during the research process.

6. The sixth part of the report is an appendix containing additional information related to the study. It includes tables, figures, and other supplementary materials that are not included in the main body of the report.
